Full of energy we have started the new year, and have ambitious plans for the future. There is a lot of news to tell you. Reading our newsletter will bring you up to date again.

The strong order situation is causing bottlenecks in capacity, which we intend to and simply must rectify.

To ensure that we don't run out of power for this, we are commissioning an additional transformer station. This will boost our power capacity, which is absolutely necessary for any expansion of production.

Unfortunately, for the work that must be done the power must be shut down for a certain amount of time, and all operations will come to a standstill because of it.

### POWEROUTAGE

**The shutdown will take place on:**

**Friday, 7 February from 12.00 pm – Sunday, 9 February 2020.**

Please note that you will not be able to contact us by phone or email during the power shutdown.

Operations will commence again beginning **Monday, 10 February 2020**, and you will be able to reach us by the usual means of communication.

### NEW COO

On 1 November 2019 Mr Tilo Callenbach assumed his new position as COO.

He assists the CEO, Mr Reto Artusi, in the operative areas.

Mr Artusi will increasingly devote his attention to the company's strategic tasks.

### CHANGE NOTICE

In the attachment we inform you about the change request 19-09. This concerns the marking of the documentation.

Please forward the request to the responsible departments in your company.

## Prix SVC

At the Prix SVC award ceremony held in the Hallenstadion in Zurich, out of roughly 100 companies MEDIPACK AG was ranked at an outstanding **3rd place**.

The Prix SVC for the Zurich Economic Area (Prix SVC Wirtschaftsraum Zürich) is awarded to leading SMEs, which impress with their innovative products and services, their corporate culture, the quality of their employees and management, and their enduring record of success.

Under the following [link](#) you can learn more.

## RENEWABLE ENERGY

We rely on renewable energies, and as of 2020 our power is supplied exclusively by Swiss hydroelectric power.
